ingredients and custom  
food-processing equipment

## **THRIFTEE EZ RELEASE**

### **FUNCTION:**

Thriftee EZ Release is the latest in cake pan release technology. It is designed to provide maximum releasing efficiency with a minimum amount of release compound. Thriftee EZ Release is an ideal release compound for most types of cake.

The unique feature of this compound is that it contains no cereal starch solids of any kind. With minor modifications, it will run perfectly through all of Mallet's cake pan greasers.

### **FEATURES:**

1. Lower viscosity allows for greatly reduced release compound usage, while providing maximum release effectiveness.
2. The lack of abrasive cereal starches will prolong the useful life of most greasing equipment.
3. Very stable- resists separation in storage as well as during actual machine application.
4. Substantially reduced sanitation and equipment maintenance requirements.
5. Lower release compound usage results in reduced grease solids at the pan washer.

### **PACKAGE:**

Bulk

58 Gallon Fiber Drum-415 lbs. Net

Plastic Pail-35 lbs. Net

55 Gallon Bung Steel or Open Head Drum-415 lbs. Net

55 Gallon Open Head Fiber Drum -415 lbs. Net

275 Gallon Totes-2075 lbs. Net
